

HUNTERS: PROTECT THE TRADITION

April 14, 2026

Dear New York State Hunters,

From the earliest days of our nation, the right to bear arms was never about a single purpose - it was about freedom. When the British marched on Lexington and Concord to seize firearms, they weren't drawing distinctions between muskets for defense or rifles for hunting. They understood what was at stake.

Today, that same freedom - and the proud tradition of hunting - is on the ballot. If you care about preserving your right to hunt in New York, this election is critical. As Governor, I will stand firmly with you and deliver real action:

- ✓ Protect your Second Amendment rights
- ✓ Cut burdensome regulations on firearms and ammunition that impact hunters
- ✓ Expand and invest in youth hunting and outdoor education programs
- ✓ Preserve access to the public lands you rely on
- ✓ Ensure wildlife management is driven by science—not politics
- ✓ Defend rod and gun clubs, conservation groups, and the communities they serve

Hunters are more than sportsmen and women - you are conservationists, stewards of the land, and a powerful voice. When hunters stand together - and alongside all who value the Second Amendment - our impact is undeniable.

This election isn't just about policy. It's about preserving a way of life. Vote like your season depends on it. **IF HUNTERS VOTE, HUNTERS WIN.**

Sincerely,

Bruce A. Blakeman
